

GANGS GUNS DRUGS

Share Gang Activity

COLLECT, ANALYZE, SHARE: INGangNetwork

The INGangNetwork will present at the Department of Education's annual training conference on September 30, 2013.

INGangNetwork hosts a criminal gang intelligence database (CrimeNtel). All law enforcement and criminal justice personnel are eligible to become members. Membership is FREE. This is a great opportunity for school resource police officers. Intelligence entered in CrimeNtel can be accessed via mobile devices or online, allowing gang intelligence to be SHARED and updated. INGangNetwork is a powerful tool that makes it easy to collect, analyze, and share gang intelligence in a single location. Individuals entered into the database do not have to meet an age requirement but rather criteria required of INGangNetwork and approved by Bureau of Justice Assistance.

If you would like information about INGangNetwork prior to our presentation on September 30th, please contact us. >>>

Why Use INGangNetwork?

- Share criminal gang activity
- Use one central location to enter and search gang intelligence
- No age restrictions of those who may be entered
- Access to other agency gang intelligence
- Easy to use
- Membership is FREE
